

RAMRI — Student Work Sheet

Student: _____

Date: 22 July 2026

Examiner: _____

SET 1 Set A — Operations Mix

| "Choose one of these problems to explain your thinking."

OPTION A

Lee made a triangle using toothpicks. He knows that a triangle has 3 sides, but does not know how many vertices it has. Circle each vertex on the triangle below.

Student's explanation / work

OPTION B

$$9 + 8 = \underline{\quad}$$

Student's explanation / work

OPTION C

Count by 2s: 2, 4, 6, 8, 10, __, __, __, __, __

Student's explanation / work

EXAMINER NOTES

SET 2 Set B — Geometry and Time

| "Select a problem that you think you can solve and explain your approach."

OPTION A

Jen draws a shape with 4 sides and 4 vertices. Which could be Jen's shape?
Choose three that apply.

Student's explanation / work

OPTION B

Hand-drawn clock with numbers 1-12 (some incomplete/cut off) and hands pointing to 12 and 6

Student's explanation / work

OPTION C

$12 + 6 = \underline{\hspace{2cm}}$

Student's explanation / work

EXAMINER NOTES

SET 3 Set C — Reasoning and Problem-Solving

■ "Pick a problem that challenges you and walk me through your thinking."

OPTION A

$$\underline{\hspace{1cm}} - 9 = 4$$

Student's explanation / work

OPTION B

$$\underline{\hspace{1cm}} - 6 = 9$$

Student's explanation / work
